ABOUT US

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum

600X1200MM

9MM THICKNESS

SPECIFICATION

Mate tiles have a smooth surface that lacks the high shine and glossiness of traditional glazed tiles. Instead, they offer a softer and more understated aesthetic, which can create a sense of warmth and sophistication in a space. While matte tiles have a smooth surface, they may still have a slight texture or tactile quality, adding depth and visual interest to the tile. This texture can vary depending on the manufacturing process and the specific design of the tile. Mate tiles are highly versatile and can be used in various interior and exterior applications. They are commonly used for flooring, walls, backsplashes, and even countertops in residential, commercial, and industrial settings.

Remarkable Range Of Textures

Tiles texture refers to the tactile surface characteristics of tiles, which can greatly influence the overall look and feel of a space. The choice of tile texture depends on the desired aesthetic, the overall design concept of the space, and the functional requirements of the area. By selecting the right tile texture, you can enhance the visual appeal and atmosphere of your interior or exterior environment.

Inspiration of Matt Surface:

Mate tiles have a smooth surface that lacks the high shine and glossiness of traditional glazed tiles. Instead, they offer a softer and more understated aesthetic, which can create a sense of warmth and sophistication in a space. While matte tiles have a smooth surface, they may still have a slight texture or tactile quality, adding depth and visual interest to the tile. This texture can vary depending on the manufacturing process and the specific design of the tile. Mate tiles are highly versatile and can be used in various interior and exterior applications. They are commonly used for flooring, walls, backsplashes, and even countertops in residential, commercial, and industrial settings.

600x1200mm

Tiles sized 600x1200 mm are large-format tiles commonly used in both residential and commercial settings. The dimensions of 600x1200 mm tiles make them larger than standard tiles, providing a seamless and expansive look when installed. They are often referred to as "large-format" or "extra-large" tiles due to their size.
